Who we are:

Gratiot County Community Mental Health (GCCMH) Services board was established in 1966 as the first rural CMH board in the state of Michigan. Many people from all walks of life encounter problems or stressors with which they may need help. Gratiot CMH is staffed by professionals ready to help them. Our staff includes trained and licensed social workers, case managers/support coordinators, psychiatrists, nurses, and support staff.

Our Mission

“Empowering individuals, through supportive services, to improve the quality of their lives.”

Our Vision

Gratiot County Community Mental Health serves as a leader in partnership with our community where everyone’s quality of life is valued, has meaning, and where each person is treated with dignity and respect. This leadership includes shared collaborative efforts and empowering individuals through recovery oriented, supportive services.

How You Can Help

The organization provides placement opportunities for college/university programs for field practicum experience. This benefits staff, programs, consumers, and future training of mental health professionals with a particular appreciation for sensitivity, cultural and social diversity.

Testimonials

Chris: "Volunteering at CMH has been one of the defining experiences of my college years. I was able to work hands-on with their clients and learned skills that will help me with any future career."

Jordan: "My experience interning and volunteering at CMH allowed me to practice and apply the material that I learned from my courses at CMU. Being able to utilize what my courses taught me in a professional setting benefited me greatly and helped me to realize that I had made the right career choice."
